

Dick Watson Field at Walled Lake Western High School is enjoyed by many students, parents, faculty, alumni, and members of the community. With so many people passing through the entrance to this beautiful facility we could not think of a better place to permanently etch its history. The black-top entrance to the field will be replaced in sections with engraved paving bricks. These bricks can be purchased by anyone for any student, staff member, coach or community member that has helped shape the history of the school. The bricks can be purchased to recognize an individual or a group; a personal accomplishment; a thank you; a dedication; congratulations; a memorial or just a way to say I was here! Sample ideas are given on the next page.

Brick sales will be year round with installations once a year. The first installation will be summer of 2007. To be on the first installation, orders must be turned in by June 15th 2007. The Paving Bricks are available in three different sizes with engraving to match each size. The order sheet includes pricing and engraving instructions. All orders must be paid in advance. For questions contact Diana Tesorero 248-207-1663.
